

I am against the petition of the CBA, to allow banks to make unsolicited telephone calls to anyone doing business with them, for 18 months after any transaction.

The purpose of the NO Call list is to stop unsolicited telephone calls to consumers. Allowing this petition would open the flood gates to possibly hundreds of calls from banks, and any other business that may file a similar petition in the future.

The Indiana No Call List has been a wonderful success, please don't let this petition ruin it for us.
